

GACA Part 107 Preparatory Exam Training

Professional preparation for aspiring remote pilots in Saudi Arabia.

Basic / Preparatory

5 Days

**Classroom or
Corporate Group**

Info@hitechdrone.net

Course Overview

A structured preparatory program designed to equip drone pilots with the knowledge required to confidently attempt the GACA Part 107 exam. The course focuses on aviation rules, airspace, operational safety, radio communication, weather, maintenance, performance, and exam simulation.

Level	Basic / Preparatory
Duration	5 Days
Mode	Classroom or Corporate Group
Price	Info@hitechdrone.net

Learning Objectives

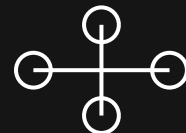

- Understand different regulations related to the Part 107 certificate.
- Identify scenarios in controlled and uncontrolled airspace.
- Summarize flight restrictions in prohibited and restricted areas.
- Understand navigation basics, charts, runway markings and traffic patterns.
- Build readiness for exam simulation tests and safe commercial operations.

Theory Modules

- Regulations and operational responsibilities.
- Airspace classification and flight restrictions.
- Chart study, airport operations and radio communications.
- Aviation weather, performance and loading.
- Maintenance, pre-flight procedures and emergency response.
- Aviation physiology and safety decision-making.

Learning Outcomes

- Recognize hazards and plan safe flights.
- Understand operational compliance within the Kingdom.
- Improve exam readiness through guided reviews and simulations.

- Gain a foundation for professional UAV work in infrastructure, inspection, agriculture and business operations.

Career ROI

Passing the GACA Part 107 exam is a foundational milestone for drone pilots in Saudi Arabia. It supports legal commercial eligibility, improves professional credibility and strengthens employability in public and private sector UAV operations.
